# COLDKIT

*Keep Fresh*

We care about delivering high-quality solutions, so our shelving is not only NF Food Hygiene certified, but also with Purever Industrial Solutions ISO9001 quality certification, as well as demanding compliance with HACCP standards.

They comply with safety, use and quality standards, under the AFNOR certification system, in addition to being certified in terms of the quality and hygiene of products, processes and facilities in accordance with current technical health regulations.

THINKING  
HOW YOU CAN  
**OPTIMIZE**  
YOUR  
**SPACE?**

# MODULAR SHELVING NF

## MODULARITY AND TOTAL CUSTOMIZATION

The versatility of the shelving allows the combination of different sizes to maximize and optimize the available space, favoring any type of organization through its perfect adaptation.

## Strong and hygienic materials

15 microns of anodized aluminum shelves, with high resistance to support the polyethylene shelves. They are recommended both for use at room temperature and in cold storage, having been created to resist low temperatures without losing their properties.

They have the NF certificate for food hygiene, which ensures their hygienic quality for food use. They can also be washed in the dishwasher, ensuring easy cleaning.

## Large capacity and strength

They can support up to 200 kg per shelf, in shelving 1035mm long or shorter, and up to 150 kg per shelf, on shelves between 1035mm and 1580mm long.

## Variety of dimensions

In addition to the 370 and 470mm dimensions, also has a shelving system specifically designed to house Gastronorm 1/1 containers, on 560mm shelves. The 560mm shelving depth meets the needs of kitchen and catering professionals.

GN 1/1 containers fit perfectly into the shelving, allowing prepared food to be stored directly in excellent condition, without having to move it to other containers. To reinforce the importance of hygiene, the shelving offers exclusive floor benches that avoid any contact between the food and the floor.

## A balanced set

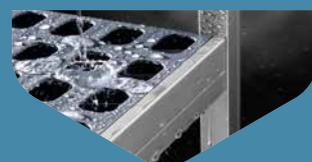

The adjustable feet ensure a total balance of the shelving if the surface where it is installed is not completely flat.

## Reduced packaging

The sets are supplied in plasticized and heat-sealed packaging, ensuring that their storage takes up the least space possible.

OPTIMIZED  
SHELVING FOR  
FOOD USE

MULTIPLE  
DIMENSIONS,  
MULTIPLE  
OPTIONS

## MODULAR SHELVING NF

# DO YOU WANT TO CREATE FUNCTIONAL AREAS?

The shelving measures are compatible with Coldkit cold rooms

### [ REFRIGERATED COLD ROOMS ]

It is possible to store any food in cold rooms, either in packaging or in specific containers for food or prepared meals. Made of 15 microns of anodized aluminum, the modular shelving resists temperatures ranging from -40°C to +80°C.

### [ PROFESSIONAL KITCHENS ]

The shelves is the ideal alternative to the inflexible classic systems because its modularity allows a complete adaptation to any professional kitchen, making the most of the available space.

### [ LAUNDRIES ]

Its easy assembly and compliance with HACCP standards ensure that both laundry and cleaning materials are perfectly organized and stored according to the needs of each business. The option of flat shelves allows storage free of marks or creases.

### [ OFFICE SUPPLIES (STORAGE) ]

The shelves facilitates all kinds of storage, regardless of who uses them, making it the best solution for any business.

## MODULAR SHELVING NF

### ONLINE CONFIGURATOR

Through online configurator you can create your shelving and obtain several combination solutions, according to its dimensions, as well as an estimate of the associated costs in a very intuitive and easy way.

## ACCESSORIES

### WALL FIX

- Wall fixing piece.
- Stainless steel AISI 304.
- Fixing by screw.
- Kit 2 units (self-drilling screws included).

### FIX 30mm APART

- Wall fixing piece
- Stainless steel AISI 304.
- Fixing by screw.
- Kit 2 units (self-drilling screws included).

### FLOOR FIXER

- Floor fixing piece.
- Stainless steel AISI 304.
- Fixing by screw.
- Kit 2 units (self-drilling screws included).

### SPACER

- Shelf spacer.
- Stainless steel AISI 304.
- Applied by fitting.
- Available in several measures.

## MODULAR SHELVING NF

### LABEL SUPPORT

- Support.
- Allows the identification of the stored material.
- Easy to apply.

### STAINLESS STEEL FLAT SHELF

- AISI 304 stainless steel.
- Maximum recommended capacity: 50 kg.
- 1 unit.
- Easy to apply.
- Available in various measures.

### SUPPORT FOR BOTTLES

- Product to store and display bottles.
- Capacity for 3 bottles and 4 bottles.
- Material: lintel Ø 4mm.
- Finished in lacquered white 9010.
